

## Release Document – Orange Leap MPX Release Version 10.2.3434

The following items are addressed in the latest version of Orange Leap’s product suite:

### Defects & Enhancements (13)

Ticket id	Subject	Module	Resolution/Description
MPX-417	Order Header and Details – Rounding Details(C)	People	Both Order Header and Details now uses the Banker’s Rounding method for the Calculated Column and the NetTotal Calculated Column when performing calculations. Also, discount calculations have been updated to use the proper rounding method.
MPX-320	Cancelling Partial Orders with Cash or Check -- A/R Updates (C)	People	When cancelling a partial order, the donor’s A/R is credited the following way: The total amount of the cancelled line items (net line item amount + line item tax amounts + prorated shipping tax amount + prorated shipping amount).
MPX-283	Distribution List Invalid Quantity Error Message (H)	People	When a violation of the valid quantities exists on a record on the Distribution List screen, the error message that appears has been updated to state “Invalid Quantity.”
MPX-282	Distribution List Renewal (C)	People	When renewing an inactive list within Distribution Lists, the renew date is added and the status changed to “Active.” There is no longer an error message that appears, which was caused by trailing or leading characters in the name of the “Active” status code.
MPX-276	Distribution List Primary List Status (C)	People	The Primary List checkbox on the Distribution List screen is now checked by default for the first distribution list record added for an account.
MPX-275	Adding New Distribution Lists (C)	People	The status of “Active” is defaulted when adding new distribution lists.
MPX-273	Distribution List Quantity Sort Order (C)	People	The Distribution List screen now has the Quantity listed in ascending order in the dropdown.
MPX-271	Transferring Gifts from One Entity to Another (C)	People	When gifts are transferred from one entity to another, the correspondence record is also transferred to the new entity.
MPX-202	Distribution List Quick View – Country column (C)	People	The column “Country” has been added to the Distribution List Quick View in the lower right hand corner of the People-Search screen.
MPX-269	Order Entry – Backorder Messages (H)	Transactions	There are no longer multiple backorder messages on the Order Entry screen when selecting a product that is currently on backorder.
MPX-203	Transactions – Credit Card/Check Field (H)	Transactions	Non-numeric characters are now allowed in the Credit Card/Check field within Gift/Order Entry for non-Credit Card and non-ACH payment types.
MPX-222	Transactions -- Validation Errors (C)	Transactions	Codes such as Category, Project, Motivation, etc, can all be changed on gifts and orders after the batch has been posted. In addition, the following validation rules do not fire for the following areas on posted batches: <ul style="list-style-type: none"> <li>• Inactive codes – a code can be inactive on a posted batch</li> <li>• Pledge Code Status of Expired or Cancelled - a pledge code can be expired/cancelled when a batch is posted</li> <li>• Payment info when the transaction has already been charged</li> </ul>

MPX-196	Media Search Functionality (H)	Transactions	<p>The Media Search Functionality within Transactions has been updated as follows:</p> <ul style="list-style-type: none"> <li>• A new Org Setting, DefaultCoverageAreaType, has been added to indicate whether the Media search should load the default for DMA or Metro coverage area for searching. This Org Setting is not set to anything so current functionality will continue for existing customers. If you experience an error message when clicking the magnify glass next to the Media Code field in Order or Gift Entry, simply change the Org Setting back to 'None' and contact support.</li> <li>• If the Org Setting is set to DMA or Metro then the coverage area name for whichever one is loaded into the media search box and the media outlets will be filtered by that coverage area name.</li> <li>• The Coverage Area column has been increased in length to allow up to 50 characters so all coverage areas appear now.</li> </ul>
